

JAMES HARE

SINCE 1865

Three Collections Create a Playful Spring/Summer 2017

The new James Hare collections for Spring/Summer 2017 have been inspired by traditional games. They are playful and spirited with three players – **Domino, Mikado and Solitaire**.

All these collections have striking colours, textures and patterns. Expressive shades in rich, bold, pastel and neutral tones are brought together with geometric shapes and textural embroidery to create a collection that's cohesive, dynamic and exciting.

With upholstery and drapery weight jacquards and embroideries, the designs across these three collections have a perfect flow, not just of design but also of colour. Shades of blue, subtle reds and pinks, purples, greens and yellows create a colour palette that is vibrant and relevant to the coming season. Like any game the result is unexpected, these collections are quite a departure from previous James Hare interior fabric collections but definitely all winners.

Notes to Editors:
